SUMMARY

Frontend Developer at Kyndryl building React and TypeScript interfaces for a SingHealth healthcare platform, turning complex requirements and legacy logic into clear, user-friendly screens integrated with backend APIs. Strengthens UI, motion and performance skills through personal Next.js and Firebase projects. A Graduate Diploma in Cyber Security and hands-on OWASP Top 10 testing bring a security-aware approach to frontend work.

SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Motion, responsive design
- **Integration & Tools:** REST APIs, Firebase, AI/LLM integration, Git/GitHub, Vercel, Linux, Lighthouse
- **UX & Security:** UI/UX design, user workflow testing, data validation, OWASP Top 10, Burp Suite, OWASP ZAP

EXPERIENCE

Frontend Developer — Kyndryl (SingHealth EUP project), Singapore | Feb 2025 – Present

- Build React and TypeScript interfaces that turn complex product requirements and legacy logic into user-friendly screens.
- Integrate frontend with backend APIs alongside backend engineers, keeping data accurate and secure across systems.
- Integrate AI/LLM services to automate complex data-processing workflows.
- Take part in user workflow validation and system logic testing.

Cybersecurity Intern — Oeson Learning, Singapore | Aug 2024 – Nov 2024

- Assessed web applications against the OWASP Top 10 using Burp Suite and OWASP ZAP; ran network and vulnerability scans with Wireshark, Nmap, Nessus and OpenVAS.

Senior Administrative Assistant — Chirotherapy, Singapore | Feb 2023 – Jun 2024

- Managed patient scheduling and staff rostering; central contact for client queries and scheduling conflicts.

Administrative Assistant — Total Health Chiropractic, Singapore | Jun 2022 – Dec 2022

- Maintained high-volume digital client records with full accuracy.

Senior Functional Wellness Therapist — Natrahea, Singapore | Sep 2020 – Jun 2021

- Coordinated rehabilitation plans across teams and produced client education media.

PERSONAL PROJECTS

Above the Horizon — Airline Web Experience | Next.js, React, TypeScript, Tailwind CSS, Motion, Vercel

- Designed and built a responsive airline site around the Airbus A380 with cabin exploration, destination carousels, a booking flow and day-to-night views driven by each destination's local time.
- Built reusable React components and a motion system; optimised performance with Lighthouse and deployed on Vercel.

Trent 900 Engine — Interactive 3D Engine Experience | Next.js, React, TypeScript, Three.js (React Three Fiber), GSAP, Tailwind CSS, Vercel

- Built a cinematic exploded-scroll site for the Rolls-Royce Trent 900 with an orbitable 3D engine model, scroll-driven animation and a 360° A380 cockpit panorama viewer.
- Wrote unit tests for the scroll, rotor and panorama logic; live at trent-900-engine.vercel.app · github.com/seany90/trent-900-engine

SIA A380 Virtual Tour — Interactive 360° Cabin Walkthrough | JavaScript, Three.js (WebGL), HTML5, CSS3, Web Audio API

- Built a 360° walkthrough of the Singapore Airlines A380 cabins from 12 panoramas, with crossfades between cabin classes and seat-state switching (armchair, bed, dining).

- Added a two-deck minimap, 3D hotspots with cabin specs and Web Audio cabin ambience, all driven by editable data · github.com/seany90/SIA-A380-Virtual-Tour

GOD's EYE — Cybersecurity SaaS UX Template | UI/UX design — designed a UX template for an autonomous vulnerability detection and remediation product.

EDUCATION & CERTIFICATIONS

- Graduate Diploma in Cyber Security and Digital Forensics — Aventis Graduate School, 2023
- Diploma of Education, Sports and Exercise — Australian Sports Academy, 2017
- Google AI Professional Certificate (Coursera) · Cyber Security Bootcamp, Vertical Institute (2024) · CompTIA Security+ course series
